Dear Mr. Wagaw:

This letter is to notify you that the United States Environmental Protection Agency (U.S. EPA) is starting the process of the Five-Year Review for the West KL Avenue Landfill Superfund Site in Kalamazoo, Michigan. The Review for the Site will be conducted as required by Section 121 of CERCLA, as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA). The purpose of the review is to evaluate the remedy implemented at the Site and determine if the remedy remains protective of human health and the environment.

This is the third Five Year Review (FYR) for West KL Avenue Landfill Superfund Site. The FYR report is due on 5/9/2019 and we are providing you with notification so that U.S. EPA and the Michigan Department of Environmental Quality can begin the necessary coordination activities.
